Kugel Construction  
1722 Bishop Road  
Chehalis, WA 98532

Dear Kugel Construction,

We wanted to express our thanks and highlight the experience we had working with Kugel Construction in the building of our vacation home. We searched for a contractor who was trustworthy, easy to work with, provides high quality service and construction, and did so at a fair price and good value. We definitely found this in Kugel Construction and we were happy with our decision.

In the construction of our home, we really enjoyed working with Adam and his crew. They were professional and took great pride in their work. They provided valuable suggestions to make our home better than the original plan including expanding the front entry at little/no cost, modifying the vaulted ceiling design to provide a more "cabin/lodge" feel, and offering valuable advice for the patio/fireplace hearth materials and the roof/gable design. These suggestions were based on years of experience by Adam and his crew.

We have now had our cabin for over 5 years and have not had any problems with our home. Recently we had a patio put in for a hot tub. Based on our prior experience with Kugel Construction, we contacted Adam to have the work done by his team. This was done on schedule and with high quality.

We have been pleased with the quality and workmanship Kugel Construction provided and recommend their services to anyone who is seeking a trustworthy and skilled contractor, who takes pride in their work and strives to provide a good value to their customers.

Thank you Kugel Construction for a job well done!

Sincerely,

Lawrence and Sherrie Heywood
